

# The planning

Bajrami Ahmet, Seveso Thomas, Simonetti Filippo, Vernava Devid

January 2025

## Work division

The project team consists of the following members: Filippo Simonetti, Thomas Seveso, Ahmet Bajrami, and Devid Vernava. The work was focused on the Heston model, and the tasks were divided as follows

Team Division: Throughout the project, we primarily worked in two subgroups:

- Ahmet Bajrami and Devid Vernava: Focused mainly on the coding and implementation aspects of the Heston model and contributed significantly to the final stages of the LaTeX formatting.
- Filippo Simonetti and Thomas Seveso: Concentrated more on the LaTeX documentation and formatting, with less involvement in the coding. However, both Filippo and Thomas also contributed to the code, primarily focusing on code formatting rather than the core implementation.
